One of Us by Michael Marshall Smith Goodreads

It's a shame that Michael Marshall Smith never quite achieved breakout status as a science-fiction writer, because the novels he wrote before he switched names (to Michael Marshall) and genres (to more conventional thrillers) SF like Spares, Only Forward and the novel currently at hand, One of Us were really original, and really good.

One of Us novel Wikipedia

One of Us is a novel by Michael Marshall Smith first published in 1998. It was the third novel Smith had published, and is similar in style to his earlier works, Only Forward and Spares , written as it is in sardonic first person prose, and set in a near future version of west coast America where things have become twisted to a sick degree.

One of Us book by Michael Marshall Smith Thriftbooks

One Of Us is a very well crafted novel featuring modern-day humanity in a not-too distant future. I love Smith's knack for twists on technology - the talking appliances (also seen in Spares but less developed) add quite a bit of humor to the reading.
